

## Come Around

Mental As Anything

You know where I can be found  
I don't see why you don't come around  
I have my own life  
And now I'm sure that you have many things to do

I know I shouldn't make things harder for you  
Than they already are  
And I wouldn't lose any sleep  
If you don't come on over in your car

So why don't you come around sometime  
You know I'm usually here  
Leave all that bitterness behind  
I promise I'll try not to leer

Things are moving so quickly  
I feel like I'm really losing touch  
Seeing you reminds me of days  
When nothing really mattered very much

So why don't you come around sometime  
You know I'm usually here  
Leave all that bitterness behind  
I promise I'll try not to leer
