

Ready for You Now

Mental As Anything

At first I wasn't sure
you made me think of him
But that was before
you got under my skin

After a date or two
The ice was melting fast
And I fell for you
Now I can say at last

I'm ready for you now (ready for you now)
Ready for you now now now
Ready for you now (ready for you now)
Ready for you now now now now

I hope you understand
Just what this means to me
Give me all you can
The same will go for me

I'm ready for you now (ready for you now)
Ready for you now now now
Ready for you now (ready for you now)
Ready for you now now now now
Ready for you now
Ready for you now
Ready for you now
Ready for you now...
