

Wolf at Your Door

Mental As Anything

Late when the moon comes up full
That's when the wolves are gonna get you
They'll bite your young head off
Sad but that's how they get off
So stay at home and lock your windows tight

Deep in the night comes a sound
You think that it's a dog but it's no hound
Scratch you for your favor
Tongue you for your flavor
He's dressed to kill so hide yourself from sight

There's a wolf at your door
There's a wolf at your door
There's a wolf at your door
There's a wolf at your door

Late when the moon comes up full
That's when the wolves are gonna get you
They'll bite your young head off
Sad but that's how they get off
So stay at home and lock your windows tight

There's a wolf at your door
There's a wolf at your door
There's a wolf at your door
There's a wolf at your door
