

Won't Let Me Drive

Mental As Anything

Wish I could drive to see you
But I can't drive at all
I guess I'll have to get my brother
To give me a lift
Bicycles I fall off them
And when I walk it's slow
But if I had a driver's licence
I'd know where to go

But they won't let me drive
They won't let me drive
They won't let me drive
They won't let me drive

Cars I never needed
But I need one now
No one picks up hitchhikers anymore

But they won't let me drive
They won't let me drive
They won't let me drive
They won't let me drive

Wish I could drive to see you
But I can't drive at all
I guess I'll have to get my brother
To give me a lift
Bicycles I fall off them
And when I walk it's slow
But if I had a driver's licence
I'd know where to go

But they won't let me drive
They won't let me drive
They won't let me drive
They won't let me drive
