

# Burn Baby Burn

MercyMe

And do we know exactly who we are  
We hold the light but we still listen to the dark  
And it tells us we that don't measure up  
And it tells us that we'll never be enough, tell me  
Do we know exactly who we are

We are the light  
Light of the world  
Light up the night  
When will we learn  
Now is our time  
Now is our turn  
To burn baby burn baby  
Oh oh oh  
Burn baby burn baby  
Oh oh oh  
Burn baby burn baby

And do we know exactly what we have  
Why don't we let it shine while we have the chance  
It's not so we can earn our place  
We shine 'cause we've been saved by grace, tell me  
Do we know exactly what we have

We are the light  
Light of the world  
Light up the night  
When will we learn  
Now is our time  
Now is our turn  
To burn baby burn baby  
Oh oh oh  
Burn baby burn baby  
Oh oh oh  
Burn baby burn baby

Oh we're a city on a hillside  
So bright keep on shining  
Oh take that fire from the inside  
Outside keep on burning

We are the light  
Light of the world  
Light up the night  
When will we learn  
Now is our time  
Now is our turn  
To burn baby burn baby  
Oh oh oh  
Burn baby burn baby  
Oh oh oh  
Burn baby burn baby
