

## Safe And Sound

MercyMe

No more boarding up my windows  
So that I can lay low  
Nobody's home  
No more trying to run away from  
Tired of being afraid of  
What I can't control  
The hardest part I'm always told  
Is letting go

Safe and sound knowing that You're big enough to  
Wrap around my heart completely  
Safe and sound just knowing that You know me

I can finally set my heart free  
Lost within the mystery  
Of this love I've found  
The hardest part I'm always told  
Is letting go

The greatest part now I know  
Is letting go
