

# Welcome To The New

MercyMe

Got to live right just stay in line  
You've heard it all at least a million times  
And like me you believed it  
They said it wasn't works  
But trying harder wouldn't hurt  
It sounds so crazy now  
But back then you couldn't see it

But now here you are  
Eyes open wide  
It's like you're seeing grace  
In a brand new light  
For the first time

Let us be the first to welcome you  
Welcome to the  
Life you thought was too good to be true  
Welcome to the new

You broke your back kept all the rules  
Jumped through the hoops  
To make God approve of you  
Oh tell me was it worth it  
The whole time you were spinning plates  
Did you stop to think that  
Maybe He is ok with just you  
There's no need to join the circus

And now here you are  
A new point of view  
And now it all makes sense  
Why it's called the Good News  
And oh

Let us be the first to welcome you  
Welcome to the  
Life you thought was too good to be true  
Welcome to the new

Look at you  
Shiny and new  
Look at you  
You got the proof of purchase  
You were purchased  
'Cause you're worth it  
Look at you  
Finding your groove  
Don't you dare think  
That you're not worth it.  
'Cause you're worth it  
Yeah you're worth it

Let us be the first to welcome you  
Welcome to the  
Life you thought was too good to be true  
Welcome to the new
