

# I Had A Beautiful Time

Merle Haggard

We met downtown in the barroom  
Both of us needing a friend  
And you brought me home to your doorstep  
It was there you invited me in

We spent the wee hours dancing  
To your favorite home stereo sounds  
We talked about what we been needin'  
Discussin' our ups and our downs

And I've had a beautiful time  
Holding your heart next to mine  
I poured out the feelings while you poured the wine  
And I've had a beautiful time

If I seem a wee bit uneasy  
You really sized me up right  
There's somebody home still up waiting  
She probably been waiting up all night

I can't say I found any answers  
But you listen while I ride alone  
And you little beautiful lady  
And you kept me from being alone

And I've had a beautiful time  
Holding your body next to mine  
I poured out the feelings while you poured the wine  
And I've had a beautiful time

I've had a beautiful time  
Holding your heart next to mine  
We poured out the feelings and then we poured the wine  
And I've had a beautiful time

You poured out the feelings while we poured the wine  
And I've had a beautiful time
