

Reasons Why

Merril Bainbridge

I finally found the reasons why
Everything I feel inside
Feelings that I cannot hide
Tell me that it's you

Got me acting kinda strange
Like I'm on a different plane
I never thought I could explain
But I know that it's love

I finally found the reason why
Rainbow colors fill the air
People always stop and stare
Whenever I'm with you

Suddenly the flowers bloom
Whistling a happy tune
I never thought I'd understand
But now I know it's love

'Cause when you smile
And look at me, then suddenly
I know why the birds
Keep singing every place I go

I finally found the reason why
Everything is upside down
My feet don't even touch the ground
But now I know that it's love

'Cause when you smile
And look at me, then suddenly
I know why the birds
Keep singing every place I go

I finally found the reason why
Everything is upside down
My feet don't even touch the ground
But now I know that it's love

This is love, I know that it's love
This is love, it's love, this is love, it's love
