

## Beyond Nightmares

Metal Inquisitor

Where to run, where to hide? I must escape this horror show, I  
will survive - can I get away?  
Breathless course, hormone surge, thanks to god: a power trip!  
My heart explodes - to see another day

I hear the screams of them - cutting through the night  
I can't believe anybody hide  
They getting closer know, closer to my side  
I can't believe: I have to fight

"I will visit you" - inside your dreams - a nightmare!  
I pray for the biggest flare  
"I will tear you down" - my favorite nightmare  
It's a melody of warfare

When I hit the ground, on the second floor I realize that my ti  
me has come - thanks to my old friends  
I don't want to go, their dirty hands, a snapping trap, they ar  
e catching me - farewell to someone else

I hear the screams of them - cutting through the night  
I can't believe anybody hide  
They getting closer know, closer to my side  
I can't believe: I have to fight

"I will visit you" - inside your dreams - a nightmare!  
I pray for the biggest flare  
"I will tear you down" - my favorite nightmare
