

Doomsday for the Heretic

Metal Inquisitor

Ruthless man hunt you down,
None you know
Wheels of pain are made, fear still grow
Dark moon rising, unsaveable
Imagine the light: incredible
Bastard born you were, unfortunated son
Enter his warfare, an eternal one

Tyranny, violent and merciless his soul
No fiew for innocent, a powerfull onslaught
You're victim now , a victim beyond hope
No crime forgotten - forbidden

The apparition, a lord of war
No mercy or retreat - heretic even burn
His constitution: "I am the law"
Dictator you'll meet - heretic never learn

Outcast infant thought, unexplored
Down the way to hell, reject a lord
Watch your tremblin' legs, creed is gone
Savage man - dark view, intense fun
All the priest have taught, "touch the ground"
A bell chimes bloody rhymes, a silver sound

Tyranny, violent and merciless his soul
No fiew for innocent, a powerfull onslaught
You're victim now , a victim beyond hope
No crime forgotten - forbidden

Tyranny, violent and merciless his soul
No fiew for innocent, a powerfull onslaught
You're victim now , a victim beyond hope
No crime forgotten - forbidden

The apparition, a lord of war
