

# Crusaders of Light

Metal Law

Across oceans, I'm sailing  
Without mercy, the Knights of the Cross  
Through the fire, I'm walking  
White knight on search for the grail

Endless enemies... You die!

Through the desert, I'm riding  
Hot desire that's burning in me  
Armed and ready, I'm fighting  
White knight on search for the grail

Die by my sword  
Let the blood run red

On my way to hell and back  
Crusaders of light  
On my quest, no turning back  
Crusaders of the light

Over mountains, I'm climbing  
Eternal quest for the truth  
Defender, I'm a legend  
White knight on search for the grail

Die by my sword  
Let the blood run red

The steel blood red, your end,  
come taste my blade  
The battle rages on, the battle was won,  
die by my sword  
The quest arrived to its end, I must die

On my way to hell and back  
Crusaders of light  
On my quest, no turning back  
Crusaders of the light
