

Hunter And Prey

Metal Law

I'm following you through the dark of the night
Your scent is driving me mad
Sweet drops of your sweat on the ground
Exploding desire in my head

Over meadow and field, through forest and swamp
I run at maddening speed
All I can think of, is to keep on your trail
And to satisfy my greed

We are - hunter and prey
Night and day
Hunter and prey

The distance is shrinking, I can smell your fear
On your flesh I will feast
You flee in panic, you never look back
To me - the bloodthirsty beast

Now that I've caught you, I feed on your flesh
Your blood is tickling my throat
I use my sharp claws, to cut your skin
The mysterious sign of the goat

We are - hunter and prey
Night and day
Hunter and prey

We were - hunter and prey
Night and day
Hunter and prey
