

## Coffee Break

Mew

Close the door when they come in  
They can feel their whole world spin  
Smoking plastic shards  
They'll never be scared of me  
(I won't drown)  
And when they change themselves  
They are never afraid of me

Summer's out for you  
There's no time for you

It is not what it seems  
You're awake in your dreams  
With lithium you'll never be sad again  
But you can't sleep with her

It's not by choice, is it?  
I hope you never come back  
There's someone else in here  
Please tell me why  
Please tell me when
