

Tricks of the Trade

Mew

What they gonna do to me?
Just when I thought I'd be
Done with all the memories
She's calling me

Trouble in her family

What they gonna do to me?
Just when I thought I'd be
Letting go of every hold
clawing me

Trouble in her family

Hey,
Too dark to see
Take a chance and shimmer
No, why does it have to be
Its always you and me

Hey,
Too dark to see
Take a chance and shimmer
No, why does it have to be
Its always you and me

This in which we
Could've seen this
In which
We tried so hard to find it
How our creased hearts binded
Pushes you again to
Never see your friends to
Rip apart the lives of those whose
Love deprives you

And its this in which we
Could've seen this
In which
We tried so hard to find it
How our creased hearts binded
Pushes you again to
Never see your friends to
Rip apart the lives of those whose
Love deprives you
