

No Right No Wrong

Michael Foret

Let's change the mood
Let's get on the road
Let your heart beat
The way you need
Rise up to the sky
And say good bye
For there's so many better places to be

Ooh, ooh - No right, no wrong
Go where you belong
Ooh, ooh - I thought you should know
There's no right, no wrong

You only see who you are
When the echoes get far
When you stop watching
Your own reflection
Rise up and fly
You shine like a star
Don't be afraid
Because it's resurrection

Ooh, ooh - No right, no wrong
Go where you belong
Ooh, ooh - I thought you should know
There's no right, no wrong

Ooh, ooh - No right, no wrong
Go where you belong
Ooh, ooh - I thought you should know
There's no right, no wrong

Rise up and fly
And say good bye
For there's so many better places to be
Rise up to the sky
And say good bye
For there's so many better places to be

Ooh, ooh - No right, no wrong
Go where you belong
Ooh, ooh - I thought you should know
There's no right, no wrong

Ooh, ooh - No right, no wrong
Go where you belong
Ooh, ooh - I thought you should know
There's no right, no wrong
