

# Chain Reaction

Michael Franks

Well, after all the tears and laughter  
You and I've been through  
How can you ask me what love is?  
Love is a chain, just a chain reaction

Once you break it, you can't fake it  
Once you wind it up, you can't unwind it  
Once you lose it or misuse it  
You can hunt forever and never find it

You come home broken  
Like your soul is black and blue  
And then you ask me what love is  
Love is a chain, just a chain reaction

Once you break it, you can't fake it  
Once you wind it up, you can't unwind it  
Once you lose it or misuse it  
You can hunt forever and never find it

Get some love in your groove  
Just get hip to forgive  
Are you tryin' to prove  
That you can take more than give?

What good is your song  
If it ain't in my key?  
Loneliness makes you strong  
Only love makes you free

Get some love in your groove  
Just get hip to forgive  
Are you tryin' to prove  
That you can take more than give?

What good is your song  
If it ain't in my key?  
Loneliness makes you strong  
Only love makes you free

Well, after all the tears and laughter  
You and I've been through  
How can you ask me what love is?  
Love is a chain, just a chain reaction

Once you break it, you can't fake it  
Once you wind it up, you can't unwind it  
Once you lose it or misuse it  
You can hunt forever and never find it

You come home broken  
Like your soul is black and blue  
And then you ask me what love is  
Love is a chain, just a chain reaction

Once you break it, you can't fake it  
Once you wind it up, you can't unwind it

Once you lose it or misuse it  
You can hunt forever and never find it

Love is a chain  
Love is a chain  
Love is a chain
