

# Samson And Delilah

Michael Johnson

When we first met, it was Juliet and that rascal Romeo  
For a while it was hugs and smiles like heaven don't you know  
But day by day all that went away and now things have changed  
We're still the same two people in an old love story but we're  
known by  
Different names

It's like Samson and Delilah  
History is repeating itself  
It's like Samson and Delilah  
All over, all over again

Yeah my weakness lies in her lovely eyes, they always hit the spot  
I can't resist her wicked kiss with all the strength I've got  
Like a moth I've been caught in the tangled web she weaves

She loves me blind but I always find that my heart has been deceived

It's like Samson and Delilah  
History is repeating itself  
It's like Samson and Delilah  
All over, all over again

Samson had a woman who was out of control  
Deceived his heart and tried to steal his soul  
And just like Samson I feel the pain  
And one of these days I'm gonna break these chains

It's like Samson and Delilah  
History is repeating itself  
It's like Samson and Delilah  
All over, all over again
