

# The Very First Time

Michael Johnson

What a change you've made in me  
I can't get the chill off of my back, I can't keep my heart from going pitter-pat  
It's a shame no one could ever see  
They'll just have to feel it to believe it but I know that it's real

From the very first time I saw you  
And I felt myself floating on air  
For the very first time  
I knew I was falling in love

Oh my hands keep trying to find me  
'Cause when you look into my eyes, I can't seem to get a hold of myself  
And my only alibi is  
That I'm absolutely sure beyond a doubt this is real

From the very first time I met you, girl  
And my heart sailed around the moon  
For the very first time  
I knew I was falling in love  
For the very first time  
I knew I was falling in love
