

# You Can Call Me Blue

Michael Johnson

Well I'm not a foolish man but I'm half out of my head  
Sitting here remembering the foolish things I said  
Here nobody knows me, nobody asks my name  
But it doesn't really matter 'cause it feels about the same

You can call me blue, you can call me untrue  
You can call me wrong even if the love is gone  
You can call me friend till the very end  
Anytime you got an extra dime, call me sometime

Well I really let you down and I watched you rise above  
Now I'm trying to get used to not believing in your love  
I'm sitting here remembering, trying to drink away my tears  
But the dreams won't die easy, I'll be dreaming them for years

You can call me blue, you can call me untrue  
You can call me wrong even if the love is gone  
You can call me friend till the very end  
Anytime you got an extra dime, call me somet

Could've called me fool, you should've called me mad  
But you didn't have to call if off, you made me feel so bad

You can call me blue, you can call me untrue  
You can call me wrong even if the love is gone  
You can call me friend till the very end  
Anytime you got an extra dime, call me somet
