

# Be True to Yourself

Michael Kiske

I came down  
But my head went up  
I had no doubts  
And hope there was not

Break it loose  
Spread the news  
Get it out  
Make it loud  
Sing it!

I got it comin' there is nothing that can stop me  
I feel it comin' there's no limit to the free me  
The sky is open and the angels sing it so clear  
I am the winner over all these hidden fears

Be true to yourself!

I have found  
I once was lost  
I came round  
To see what it costs

Kick it up  
To the top  
There's a lot  
That I got  
Hear it!

Don't wanna look back, got to start to see the future  
Don't wanna hold back got to let it out and to ya  
The bomb is ticking, I know it's gonna blow up  
Right now there's nothing, no one,  
nowhere that can make it stop!

Be true to yourself!
