

# Forever and More

The Michael Schenker Group

Packed her bags and headed for the station  
It's five A.M. and cold enough to slide  
I looked around  
There's no information  
Where are you going?  
Are you safe tonight?

Now the summer's gone  
Don't know where you are  
The hardest part is the love for you  
Oh my love

While half way there to the destination  
Touchdown in Dallas  
Staggers from the plane  
She looks around  
But he's not waiting  
What has she done  
What has she done  
Now the summer's gone  
I know where you are  
The hardest part is the love for you

[Chorus:]  
There's a letter written for you  
Tell me how can I get through  
What am I supposed to do your heart is in mine  
And it's slowly beating  
What happened to Forever And More

All my friends say go away for a while  
Down to the ocean where the air is clean  
But I'm still waiting for a message from you  
I'm still waiting  
I'm still waiting

Now the summer's gone  
Don't know where you are  
The hardest part is the love for you

[Chorus]

It's six A.M.  
The phone is ringing  
I say hello is there anybody there  
If it's a dream I need to awaken  
Where are you love?  
I'm far away  
The winter's here  
You know what I fear  
Can I see you?  
Will you be on your way?  
I'm on my way

Here's a letter written for you  
Don't know how I ever got through  
What was I supposed to do

Your heart is in mine and it's slowly beating  
Here's a letter written from you  
Don't know how you ever got through  
What are we supposed to do?  
Our hearts are together  
Mine in yours  
Forever and more
