

# I Want You

The Michael Schenker Group

Your love is like a nightmare  
Who is haunting who  
When we fight we hate the sight  
Of each other through and through  
I've never been so frightened  
The gods honest truth  
When you fix me with those eyes  
I've got everything to lose

See i've got your number tattooed  
On my heart  
It will stay forever here  
Never will it part  
As long as you remember  
The promises you made  
Once shadows start to fade

I want you  
Who'd you think your cheating  
Only you  
When making love it's true  
Nobodys lies here baby only you!

You said it's love forever  
There was only me  
Why you had a change of heart  
Too dumb to see  
If theres a god in heaven, then let me know  
I will get to praying girl  
Somehow let you go

I want you  
Who'd you think your cheating  
Only you  
When making love it's true  
Nobodys lies here baby only you!
