

Summerdays

The Michael Schenker Group

You don't even know me
You forgot my name
all i know is what we had
that's a crying shame

The other day I saw you walking
down the street
felt a tremble in my hand
if only we could meet

Living a illusion
A melody run me by
Stuck In this Confusion
Don't let the music die

Running Into Danger
i'm coming off the rail
Don't treat me like a stranger
cos a love that failed

I am just a loner what do I have to do
Searching through old battlefields
getting back to you

Release Me
Why can't you

those summer days
when life was good somehow
I do remember
it's hard to find
That's why I miss you now
i'm failing

You don't even know me
You forgot my name
all i know is what we had
that's a crying shame

Release Me
Why can't you

those summer days
when life was good somehow
I do remember
it's hard to find
That's why I miss you now
i'm failing

I'm just a Loner
What do I have to do
