

# Dig Up Her Bones

Michale Graves

Anything is what she is  
Anywhere is where she's from  
Anytime is where she'll be  
Anything as long as it's mine

And the door it opens the way back in  
Or is it the way back out?

Walk on

Anyplace is where she'll be  
Anyplace she'll see you from  
Lies and secrets become your world  
Anytime, anywhere, she takes me away (She takes me away)

And death climbs up the steps one by one  
To give you the rose that's been burned by her son

Point me to the sky above  
I can't get there on my own  
Walk me through the graveyard  
Dig up her bones  
Oooooho Dig up her bones

Walk on  
Dig up her bones

I have seen the demon's face  
I have heard of her death place  
I fall down on my knees  
In Praise of the...  
Horrible things that took her away

And death climbs up the steps one by one  
To give you the rose that's been burned by her son

Point me to the sky above  
I can't get there on my own  
Walk me through the graveyard  
Dig up her bones  
Oooooho Dig up her bones

Point me to the sky above  
I can't get there on my own  
Walk me through the graveyard  
Dig up her bones  
Oooooho Dig up her bones  
Oooooho Dig up her bones oooho

Walk on  
Through the graveyard  
Walk on
