

Before I Go

Michelle Chamuel

Is this the last song?
I feel like I tried
To show you I want you
Right here by my side
I made you smile
I've given you signs
So won't you come find me (find me)
Before there's no time

To catch me before I go
I go
Before I go
Won't you catch me before I go?
(Go Go Go Go)

It's the end of the night now
The song's ticking by
I thought that you saw me
And you caught my eye
I made you smile
I've given you signs
So won't you come find me (find me)
Before there's no time

To catch me before I go
I go
Before I go
Won't you catch me before I go?
(Go Go Go Go)

Won't you catch me before I go?
We are the ones
The ones who get to say who we are
We are the ones with just enough time (time) yeah
We are the ones
The one who get to say who we are
We are the ones with just enough time
(Time time time time)

So catch me before I go
I go
Before I go
Won't you catch me before I go?
I go (Go go go go)
Won't you catch me before I go?
(Go go go go)
