

In My Head

Michelle Chamuel

There was a mountain I decided to climb
I read the ad in the paper and then again online
It said to come find us if you're the one to beat
And if you climb this mountain you'll make history
And now I'm climbing high or down below
Calling out calling out for me to go slow
And though I'm higher now than I've ever been
I slow down I slow down because you say so
Because you say so
And then I start wondering
What's the use in listening
Here we go again
You're in my head (In my head)
Spinning 'round, you don't let go
In my head (In my head)
Spinning 'round
I can't let go
I kept climbing higher as you were falling behind
You told me I should save you
You said we'd be alright
But now that I'm farther
I can finally see
If someone else could save you it sure as hell ain't me
So now I'm climbing high, you're down below
Calling out, calling out for me to go slow
And I'm higher now than I've ever been
Won't slow down, can't slow down because you say so
Because you say so
But here we go again
You're in my head (In my head)
Spinning 'round, you don't let go
In my head (In my head)
Spinning 'round
I can't let go
You're in my head (In my head)
Spinning 'round, you don't let go
In my head (In my head)
Spinning 'round
I can't let go
I'm standing at the end, on my own
On top of the world, in the sun
Here alone
Everyone gone
Gone in the end
Here we go again
You're in my head (In my head)
Spinning 'round, you don't let go
In my head (In my head) (In my head)
Spinning 'round
I can't let go
In my head, spinning 'round, you don't let go
In my head, spinning 'round
Spinning round, I can't let go
