

Insights and Turnpikes

Michelle Chamuel

Night in the van with my friends
Sleep with my head in my hands
Street lights and car brights leave paint on my eyes
It's a long ride

Every mile binds us tighter and tighter
Every mile takes us further from home

We've got emergency exits
They make our faces glow red
Insights and turnpikes collide in my mind
It's a long ride

Every mile binds us tighter and tighter
Every mile takes us further from home

We drive right through the sunrise
Celebrate every state line
Point out the rest-stops and quick-marts we like
It's a long ride

Every mile binds us tighter and tighter
Every mile brings us closer to home
