

# Not Going to Stop You

Michelle Chamuel

Leaving is the only way of knowing  
The only way that we can both be sure  
I won't be the reason you stop growing  
I know there's something there beyond our door

Loving you hasn't always been simple  
All the things I feel I can't explain  
My heart won't like the choices I'll be making  
But if you were in my place you'd do the same

So go on your way  
I'm not going to stop you, my love  
Won't ask you to stay  
I'm not going to stop you, my love  
My love

You would buy the ocean just to save me  
Hold me through a flood or ice or flames  
You'd hang up the stars to see me happy  
Now's a chance to show I feel the same

So go on your way  
I'm not going to stop you, my love  
Won't ask you to stay  
I'm not going to stop you, my love

They say if it's yours, you don't have to keep it  
Held so tight  
So I'm going to learn to let go and watch while  
You take flight

So go on your way  
I'm not going to stop you, my love  
Won't ask you to stay  
I'm not going to stop you, my love  
If my heart should break  
I'm not going to stop you, my love  
So go on your way  
I'm not going to stop you, my love  
My love
