

Dopecrawler

Michelle Darkness

You see me walking down the street
You look at me you stupid thing
You're wondering what I should be
I spit on you, I'm the devil's sin
Still looking out for a drink
We are dressed in black colour

And so I get up every day
I watch the sunlight fade away
And with the darkness I go out
And I put something into my mouth

You see me walking down
You're wondering somehow
I'm the devil's sin
I put something into your drink

I rape your heart, I drink your blood
And weep a lot but then I smile
I know it's time to start again
I'm a dopecrawler
