

I Said

Michelle Featherstone

All these stars around
Let them shine on down
Shine all over you

The future isn't planned
Now I understand
What you're going through
But have no fear
I am here to hold you

And I said that I would
Protect you from the dark again
And I meant it
I promised to catch you if you fall again
And I'll save you always

So let the rain come on down
And fall about the ground
And fill in all around

Whatever you will be
Is more than you can see
And waiting for you now
So have no fear
I am here to hold you

And I said that I would
Protect you from the dark again
And I meant it
I promised to catch you if you fall again
And I'll save you always

And if your blue skies turn gray
You can't get out of bed today
I'll tell you
Time and time again

I said that I would
Protect you from the dark again
And I meant it
I promised to catch you if you fall again
And I'll save you always
