

# You're Not Alone

Michelle Featherstone

The world is turning upside down  
I'm talking. Is there anybody listening to me know  
I can't say the right thing is what I always do  
I'm just like you  
Looking for the answers too

You do what you can to see both sides  
You give what you have to satisfy  
You think you've got a long way to go  
You're not alone  
You're not alone

Strangers faces look from all directions  
They're hoping and searching for some reaction  
I can't say the right thing will always be the truth  
What do we do but keep pushing on through

You do what you can to see both sides  
You give what you have to satisfy  
You think you've got a long way to go  
You're not alone  
You're not alone  
You're not alone  
You're not alone

This black and white world should be more colorful  
So open your eyes  
The sun will shine through Turing grey skies to blue  
It's a state of mind

You do what you can to see both sides  
And you give what you have to satisfy  
You think you've got a long way to go  
You do what you can to see both sides  
And you give what you have to satisfy  
You think you've got a long way to go  
You're not alone  
You're not alone  
You're not alone  
You're not alone
