

# Let It Rain

Michelle Tumes

Awake me  
You whisper on the breeze calling my name  
Stirring  
Storms of You, sweet lightning  
I wait here  
Shifting winds suddenly change  
Feels like rain

And You're rolling like thunder  
Heaven's wings will lift me up with rain  
Will You raise me on Your river  
Holy water falling down like rain  
Let it rain

Searching  
Above the sea of clouds, You're all I see  
Endless  
Tapestry of streams dancing  
Around me  
Starlight in shimmering waves  
I feel rain

And You're rolling like thunder  
Heaven's wings will lift me up with rain  
Will You raise me on Your river  
Holy water falling down like rain  
Let it rain

Ooh, let it rain...

And You're rolling like thunder  
Will You raise me on Your river
