

Love Shines Through

Michelle Tumes

I have a simple story
Not broken dreams, but all those things
That I've been through
I remember You called me
Your love shone through my heart that day
When I was a child

Now I lay awake at night and pray
That I hear the little things You say
Love shines through me and now
It consumes me
I cannot believe what You're doing for me, oh

CHORUS:

Love shines through every day
Reminds me of the way
You entered right into my heart and soul
Love shines through
Love shines through

Now I'm a little older
And nothing else could ever smolder
This burning fire
They say that love grows colder
And fairy tales are life's own fables
They're all a lie

Now I lay awake at night and pray
That I hear the little things You say
Love shines through me and now
It consumes me
I cannot believe what You're doing for me, oh

CHORUS

And every little thing You do
Is evidence You're true
I believe You

CHORUS:

Love shines through every day
Reminds me of the way
You entered right into my heart and soul
Entered right into my heart and my soul
Entered right into my heart and soul
Love shines through
Love shines through
Love shines through
Love shines..... through
