

## To Live For Love

Michelle

The sun fills up the room embracing you with light  
And you feel safe and warm  
Darkness disappears and everything is bright  
As you turn to meet the dawn

Flames will melt the ice  
You feel a fire burnin' inside  
Emptiness and grey gone and far away  
When you hear the melody  
Heaven sings the song that you feel

To live for love means you'll never die  
To live for love for all of your life  
You'll see forever's here to stay

Now, sometimes love will end  
And stay with you for all of your life  
Mmm... sometimes the love's a glance  
A warm but brief romance, and you want the melody  
Heaven sings the song that you feel

To live for love means you'll never die  
To live for love for all of your life  
You'll see forever's here to stay

Hand in hand with you, living love forever  
And we fly as far as we can dream  
Everything we share, the tears and all the laughter  
When I'm with you, I know it's love I feel

To live for love means you'll never die  
To live for love for all of your life  
You'll see forever's here to stay

You'll see forever's here to stay  
Forever's here to stay
