

# Hang On to Me Tonight

Mick Jagger

Like a picture you came into my life  
Like a picture the colours fade away  
Love is fragile, you hide it from the light  
It lasts forever and always stays the same

Like a movie, you swept into my life  
And like a movie, the stars just fade away

Hang on to me tonight  
Stay close to me all day  
Hang on to me tonight  
Stay close to me all day

Ah, honey, while there's youth upon your face  
Ah, honey, are you tiring of the race  
My cards are on the table  
You can get up and walk away  
Or stay

Like a movie, you swept into my life  
And like a movie, the stars just fade away  
All the characters are mouthing out their lines  
And the love scenes are shot in shades of grey

Hang on to me tonight  
Stay close to me all day  
Hang on to me tonight  
Stay close to me all day

Ah, baby, while there's youth upon your face  
Ah, baby, don't you lose that natural grace  
My cards are on the table  
You can get up and walk away  
Or stay

Hang on to me tonight  
Stay close to me all day  
Hang on to me tonight  
Stay close to me all day
