

# Hide Away

Mick Jagger

Hide away hide away

Make sure that I never come back  
Disappear and I never come back

I'm gonna pack up all my bags  
Vanish while I can  
Gonna leave this town behind  
Pay it all no mind  
I'm gonna fly away  
And no one's gonna find me

Keep my destination quiet  
Take an early morning flight  
Never tell a soul  
Just light out on my own  
I'm gonna fly away  
And no one's gonna find me

I'm gonna wear some fake disguise  
Change the colour of my eyes  
Yes I'm going hide away  
And you're gonna be surprised  
I'll be wise before my time  
I'm going hide away

Make sure that I never come back  
Disappear and I never come back  
Make sure that I never come back  
Disappear and I never come back

I'm gonna rent a small hotel  
Throw away my cell  
Cut off all my hair  
Sweep away my cares  
I'm gonna fly away  
And no one's ever gonna find me

I'm out of everybody's reach  
Out on some twisted beach  
I'm gonna hide away  
Dissolve right out this scene  
Out of everybody's dreams  
I'm gonna hide away  
Hide away  
Hide away

Make sure that I never come back  
Disappear and I never come back  
Make sure that I never come back  
Disappear and I never come back
