

## Factories

Middle Class Rut

Nobody ever said "Hey shut off the mains  
The waters leaking, it's in your brain  
The factories are shut down, so just don't bother them"  
And even though I look to no one for nothing  
It bothers me who I am inside  
The no good goin' thru the motions kind of man

I'm in the ground feeling no one anymore  
I'm in the ground feeling no one anymore  
I'm in the ground feeling no one anymore  
I'm in the ground feeling no one anymore

Nobody ever said "Hey boy what's your name  
You grew up fast but you're still the same  
Your accidents are mapped out, so please don't follow them"  
And even though I took the long road for nothing  
It bothers me I can't get inside  
Unless I'm the best and the worst just slowly dies

I'm in the ground feeling no one anymore  
I'm in the ground feeling no one anymore

I lost my way back there  
Now no one seems to care about me anymore  
I lost my way back there  
Now no one seems to care about me anymore

Nobody ever said "Hey shut off the mains  
The waters leaking, it's in your brain  
The factories are shut down, so just don't bother them"  
And even though I took the long road for nothing  
It bothers me I can't get inside  
Unless I'm the best and the worst just slowly dies

I lost my way back there  
Now no one seems to care about me anymore  
I lost my way back there  
Now no one seems to care about me anymore  
I lost my way back there  
Now no one seems to care about me anymore  
I lost my way back there  
Now no one seems to care about me anymore
