

# If You Want It

Middle Class Rut

They'll trade you what they have inside their hand  
For what you have in your heart  
Don't give in  
I wish I could put my eyes inside your head  
So I could see what  
I look like from your side

So if you want it  
Come and get it  
If you want it  
Come and get it  
If you want it  
Come and take your piece  
If you want it  
Come and get it

They live inside a world that's never sick  
That's never tired, that's never torn  
Don't give in  
I wish I could put my heart inside your chest  
So I could see what  
It feels like from your side

So if you want it  
Come and get it  
If you want it  
Come and get it  
If you want it  
Come and take your piece  
If you want it  
Come and get it

It can't be that hard to raise the dead  
The old world has died, a new one is ahead

Almost there  
Almost there you are  
Almost there  
Almost there you are

I notice now the things you say  
The looks you give  
The price you paid is over  
And I won't give into it  
Written off, thrown away  
Set in stone, another day is over  
And I won't give into it  
No I won't give in

So if you want it  
Come and get it  
If you want it  
Come and get it  
If you want it  
Come and take your piece  
If you want it  
Come and get it

Just come and get it  
Come and get it  
Just come and get it
