

Rising

Midge Ure

Stood on a mountain high as the sky
Watch the whole world crack apart
Feeding me, feeding me, feeding me, life, ohoho

See as the dazzling light hits my eyes
And it fires up my heart
Giving me, giving me, giving me, life, ohohohooo

Rising up in the East is our day
Pour your light in my way, ohooo
Shining out in the East is our day
Pour your power my way, ohohooo

Filled with the strongest emotions of all
As our fingertips entwine
Feeding me, feeding me, feeding me, life, ohoho

Taste the embrace of the highest of highs
As your soul rejoices mine
Giving me, giving me, giving me, life, ohohohooo

Rising up in the East is our day
Pour your light in my way, ohooo
Shining out in the East is our day
Pour your power my way, ohohooo

Rising up in the East is our day
Pour your light in my way, ohooo
Shining out in the East is our day
Pour your power my way, ohooo

Rising up in the East is our day
Pour your light in my way, ohooo
Shining out in the East is our day
Pour your power my way, oh

Rising up in the East is our day
Pour your light in my way, ohooo
Shining out in the East is our day
Pour your power my way, ohooo
