

## Star Crossed

Midge Ure

Star crossed and beautiful

Watch what you've become  
Both flower and gun  
You are unique  
You wild, wild heart  
See all you could be  
Growing high and free  
Forever lost  
You wild, wild heart

Star crossed and beautiful  
Stardust, untouchable

I live inside your eyes  
Form your truths and lies  
Part of my soul  
You wild, wild heart  
Near but we're worlds away  
Kills me every day  
This can't go on  
You wild, wild heart

Star crossed and beautiful  
Stardust, untouchable  
Star crossed and beautiful

Ancient and raw and fighting me  
Tied up in knots inside of me  
Where does it say it's easy  
No, we're not alone  
We're not alone  
We're not alone
