

# Where Did U Go?

Midnight Red

[Joey:]

I'm a boy and you're a girl  
And my dream's about to end  
You're in the dark, I know where you are  
But you're underneath my skin

[Thomas:]

The way you dance real low, make me follow you slow  
The way you hold so tight like you need the light  
But when the music stops and you let me drop  
Girl it's like nothing that I felt before

[Anthony:]

You turn me on then you're turning me down  
Got me screaming out for more

[Chorus:]

Where did U go?  
Now you can say that you don't want me  
Your fingerprints all over my heart  
No you can't take it back that easy  
So finish up what you start  
Where did U go?  
You wanna steal my love and leave me  
You're wondering where you are in the dark  
No you can't take it back that easy  
So finish up what you start  
Where did U go?

[Thomas:]

Can't get no sleep, you're stuck in my head  
I can still feel how you breathe  
You got me caught up in your web  
And I don't want to escape

[Joey:]

'Cause when you move real slow makes me wanna know  
The way you hold so tight when we dance on the floor  
And when the music stops and you let me drop  
Girl it's like nothing that I felt before

{Anthony:]

You turn me on then you're turning me down  
Got me screaming out for more

[Chorus:]

Where did U go?  
Now you can say that you don't want me  
Your fingerprints all over my heart  
No you can't take it back that easy  
So finish up what you start  
Where did U go?  
You wanna steal my love and leave me  
You're wondering where you are in the dark  
No you can't take it back that easy  
So finish up what you start  
Where did U go?

[Colton:]

I can't stop wanting you  
The plot you put me through  
You turn me on then you're turning me down  
Got me screaming out for more

[ALL:]

Where did U go?  
Now you can say that you don't want me  
Your fingerprints all over my heart  
No you can't take it back that easy  
So finish up what you start  
Where did U go?  
You wanna steal my love and leave me  
You're wondering where you are in the dark  
No you can't take it back that easy  
So finish up what you start  
Where did U go?
