## **Ways And Means**

## **Mike Doughty**

The best I ever did with my life Said just three honest words to you Three droplets in a pail of lies Three gems among the alibis

Yes, I know the ways and means I are, Ma, Yes I know the ways and means I are.

The best I ever did with my love Said your name on the microphone You heard it the restaurant Cashed out and brought your tips on home

The best I ever did with my bucks Put two down on your horse to show She lost but just kept racing 'round Kept running 'til the sun went down
