

# Heaven's Open

Mike Oldfield

This is that morning  
It's waiting for you  
The face of destiny  
Standing before you

This is zero hour, now is for you  
Can you feel that power inside of you?

This priceless moment  
In your possession  
Answers to mysteries  
Stand in succession

This is zero hour and there's no way back  
Can you feel that power? In its arms you're wrapped  
All through the night-time  
'Til the sun comes in  
Now Heaven's open  
Just fly right in

Now you stand in that garden  
This is that vision  
Out on the world's edge  
It's your baptism

This is zero hour and your hands are free  
Can you feel that power? It's ecstasy!  
All through the night-time  
'Til the sun comes in  
Now Heaven's open  
Fly right in

Waiting for night-time  
'Til the sun comes in  
All through the night-time  
Let the blue sky in

Heaven's open  
The sun comes in  
Heaven's open  
Let that blue sky in!

You know, sun comes in  
Now, heaven's open  
Fly right in
