

been thinking

Mike Stud

Do you still think of me
Do you still think of me

I've been thinking about
Some things that you said
Things I said to see you
Up in his bed
But I know he ain't gonna do you
Like I can
So tell me you love baby
'Cause I
I've been thinking about
Some things that you did
Things I said to see you
Up in his bed
But I know he ain't gonna do you
Like I can

Do you love me baby
Keep it one hundred
I don't know what I want
But I want something
Do you want me still babe
Keep it one hundred
I'm the one you supposed to
Keep this shit a buck with

But who am I to tell you
Who to love these days
Water in your eyes
Like a flood these days
Who am I these days
Who was I back then
Back before we met
Back before we were friends
But who am I to tell you
What to want these days
I was spending all this time
I can't afford these days
Who am I these days
Who was I back then
Back before we met

I've been thinking about
Some things that you said
Things I said to see you
Up in his bed
But I know he ain't gonna do you
Like I can
So tell me you love baby
'Cause I
I've been thinking about
Some things that you did
Things I said to see you
Up in his bed
But I know he ain't gonna do you
Like I can

Do you love me baby
Keep it one hundred
I don't know what I want
But I want something
Do you want me still babe
Keep it one hundred
I'm the one you supposed to
Keep this shit a buck with
