Got a pocket full of condoms
Pocket full of systems
Got drugs on an island, on the counter in the kitchen
Feel like I see better when I barely can see, shawty
Hungrier than ever, but I still can't eat

Lil' babe just pour me up, drugs are my writer
I smoke too much, can't go much higher
Guess that depends, throwing gas on fire
Over, over again
So turn me up, I can't go quiet
Notorious, I'm big with the vibe
Can't open up, but I can't go higher
Over, over again

Sleep well, let me get my rest
You know I never can
Replaying all in my head
Over, over again
But details I'd rather spare
You know I got no room left
In my big, my big old head
Over, over again
Over

I see your friends, I never ask for ya
But they know I kept my foot up on the gas for ya
Then I zoom right back to ya
Then I zoom right past ya
Baby yeah, now I'm back on gang shit
Back on the ground, back on pavement
And she like my fragrance
Wearing my T-shirt, baby just take it
She throw that vibe at me
I promise Imma catch it (ooh ooh)
Left the city, we got busy a
And forget to leave a message (ooh ooh)
Got no service in the hills
You gon' have to leave a message (brrrrrrr)
Got a shawty in the field
With an ass as big Texas (ooh)

Lil' babe just pour me up, drugs are my writer
I smoke too much, can't go much higher
Guess that depends, throwing gas on fire
Over, over again
So turn me up, I can't go quiet
Notorious, I'm big with the vibe
Can't open up, but I can't go higher
Over, over again

Sleep well, let me get my rest
You know I never can
Replaying all in my head
Over, over again
But details I'd rather spare
You know I got no room left

In my big, my big old head
Over, over again
Over

Over, over
Over again
Over, over
Over again
Over, over
Over
