

## Dose Of You

Mike Stud

I can be your lighter, you can take me higher  
And I just need a dose of you

God damn girl, look at you kill it  
Everything you do, got me like "oh"  
Cause you the one that I'm feeling, you one in a million  
I mean that, feel like I'm up in the rehab  
You drive me crazy  
No keys, so mean, got me feeling like a dope fiend, so OD  
I like the way you wanna call the shots  
Cause all of our relationships are like our favorite drinks  
They always on the rocks  
But girl I get it, girl I'm with it  
Lot of girls around but no doubt that you're my favorite  
Cause they play the game and you changed it  
And that's crazy

I can be your lighter, and you'll be my addiction  
Girl I just need a dose of you  
You can take me higher, come fill my prescription  
And I just need a dose of you  
Girl you got me, and I just need a dose of you  
Okay, let's take a leap of faith  
This could be our moment  
Girl I don't play, I keep you up late like my name is Conan  
Cause we young and we dumb and we loving life  
And tomorrow might never come, so let's come tonight  
Turn up like it's your favorite song, then I might just go take  
you home  
And girl I know that I came on strong  
But the good ones gone when you wait too long  
Oh my, no lie  
So tell me how that feels, got your head up high like them heels  
Cause you the dopest, I need my doses, come on

Follow you like a religion, celebrate you like tradition  
Let me show you what you're missing  
When you talk, I wanna listen  
Quit testing my patience
