

Is It Worth It

Mike Stud

I been so worried about tomorrow
I forgot to think about today
And it seems I'm always going to all this trouble
Just so I can tell myself it's OK

Cause I ain't worried, I been broke
I ain't perfect
But no one else is
So I stay searching
For the reason I been putting all this work in
And is it working
Is it worth it (ohh)

Sure I made a couple dollars last week
Yeah, I got a couple hollers in the streets, sweet
But for me this whole thing's a little shaky
Cause a lot of people love me but some others fucking hate me
Sh*t is crazy, feeling wavy
Kissing babies, fucking ladies
Stations play me
But will any of these labels ever take me (maybe)
So is it really worth it
Cause I'd be lying if I told you everything was perfect
I'm not the best, probably not close
But I know a lot of kids that relate to my flows
So eff you to whoever say I don't deserve it
I put the work in
So is it worth it

Cause I ain't worried, I been broke
I ain't perfect
But no one else is
So I stay searching
For the reason I been putting all this work in
And is it working
Is it worth it (ohh)

And everything happens for a reason is the message
The good times a blessing, the bad ones a lesson
But choose to live for free at the cost of a bad impression
Cause sleeping till noon and drinking booze is adolescents, right?
So this life seems to be a piece of cake
But it's tough to be sure when you living on a leap of faith
Wait, just wait, this'll only take a minute
Before you jump to hate, take a moment and just listen
I said no to Harvard to follow a dream
Went to Duke first year and was the star of the team
Big man on the quad before this scar on my arm
Went from bench to the stage look how far that it's gone (uh)
And sometimes I kinda miss my old life
But being on stage just feels so right
Yearbook closed I'm on to the next chapter
Don't know what's gonna happen
But I'll worry 'bout it after

I been so worried about tomorrow
I forgot to think about today

And it seems I'm always going to all this trouble
Just so I can tell myself it's OK

Cause I ain't worried, I been broke
I ain't perfect
But no one else is
So I stay searching
For the reason I been putting all this work in
And is it working
Is it worth it (ohh)
