

It's a long story baby, all commas
I forget who I was, I got Alzheimer's
Yeah, it's no stats, all commas
I been on ghost since when I started
I been on ghost before you knew my name
But I already know the things that I already know
If I'm jumping off the ledge again, I'm holding your hand
'Cause I ain't try to go nowhere, that you don't wanna go
There ain't a chance that I won't take to make sure that we're okay

These are real things
Gave up it all for me
These are real things
I fell in love with these
In between things
Let's go for a ride, know what I'm saying?
Maybe see the other side, know what I'm saying?
'Cause these are real
These are real things

I gotta leave when I gotta leave
It's not up to you, it's not up to me
While we talk, we wouldn't agree
The vision is mine, so how can you see?
I wanna know what I gotta know, but how could you know though?
Hundred degrees, but I've been on freeze, and I love the cold though
I'm out of town, I'm barely around but I got your photo
Wish you could see what I'm looking at now, so I took a photo
Not by the phone, I barely go home, but I wanna go though
I'm on the road, I wanna go home, but how would you know though?

Let's go for a ride, know what I'm saying?
See the other side, know what I'm saying?
Better get out of here, know what I'm saying?
No way to go instead of up though
Sound packin' crackin', know what I'm saying?
Nah baby that's now what I'm saying
Right now I'm high

On real things
Gave up it all for me
These are real things
I fell in love with these
In between things
Let's go for a ride, know what I'm saying?
Maybe see the other side, know what I'm saying?
Right now I'm high on real things
These are real things
These are real things

I'll take you for a ride, know what I'm saying?
Let's go for a ride, know what I'm saying?
