

Talk Less

Mike Stud

I ain't saying I ain't crazy
I'm in Cali Rari racing with my dogs from the city
Dog we had this conversation
Talk a little bit less, so let's do more
Talk a little bit less I'm saying, so let's do more, yeah, yeah, yeah

Some people need a filter but I don't (that's right I don't)
Their pictures got a filter but I don't, that's right I don't
I take care of business mind my own
Some times I know it's wrong but I still do it like I don't
That's right, yeah, I pick up the phone, call it how I see
I turn up every evening, then I just repeat it
Got all running to a meeting now
That's right, yeah, I can do it all, feel like Willie Beamen
Manifest it all every time I speak it
I don't never talk unless I really mean it, though
Oh no I cannot waste my time
That shit I really can't afford
Won't take no shortcuts in this life
That shit is already way too short
That's why I'm working, working, working on my latest fuck
And I ain't never been the kind of guy to say too much

I ain't saying I ain't crazy
I'm in Cali Rari racing with my dogs from the city
Dog we had this conversation
Talk a little bit less, so let's do more
Talk a little bit less I'm saying, so let's do more, yeah, yeah, yeah

And I don't like to do too much talking
Before I ever lie I tell you nothing
I really turned nothing into something
So they can go ahead with their assumptions
Yeah, yeah
Everyday shooting dice, still 'bout my business
Getting cash so I gotta move different
Cause some friends that I still love won't listen
It wasn't good for my life, I couldn't pretend (they gotta go)
A lie couldn't help me I was hurting
Now they all seem to need me cause it's working now
Before I lie I won't tell you nothing (shh)
They selling dreams but ain't selling nothing (no)
I realize this cash don't mean nothing (no)
And I can't spend it all without you

I ain't saying I ain't crazy
